2017 Bare Root Tree Order Form

"Changing your opinion of bare root trees - one outstanding tree at a time"

Size - if listed in feet ('), the tree is at least that tall . If listed in inches ("), the tree is at least that caliper (diameter). We aim for 1" caliper or 7' tall trees, which are a great size for planting, they are large enough to produce soon, but still can be handled without special equipment. Sometimes the grower has to substitute. We also source from several growers, so the prices and sizes may vary according to the grower. Also, we offer both Standard and Semi-Dwarf trees, noted after each variety.

Order

QTY	Variety	Size	Price	Ext. Price
	Apple - Honeycrisp - Semi Dwarf	7'	\$ 40.00	\$ -

To reserve your tree (that's right, no waiting in line, waking up early, and peace of mind knowing your beautiful tree order is waiting for you), since the quantities are limited - submit at least a 50% deposit of your total order along with the order form. Sometimes, the vendor may not ship a particular variety of tree due to quality issues. In that case, which is out of our control, we will refund your deposit on any unshipped trees. Trees will need to be picked up by April 23rd.
